

NAM Community Partners Make an Impact!

Investing in the community where you live, work and do business makes sense and creates impact. Together, we can improve the quality of life for area families, adults, children and seniors through partnerships including volunteer, in-kind and financial support.

Benefits to Your Company or Organization...

- * Build leadership skills through volunteerism.
- * Enhance employee teamwork, morale and retention through community service.
- * Increase brand awareness and sales through reaching loyal constituents.
- * Demonstrate social responsibility to your employees, clients and stakeholders through heightened community visibility.
- * Expand your network through community connections.
- * Maximize community goodwill through contributions making a local impact.

How You Can Help...

Financial, in-kind or volunteer support are all valuable and can be offered singularly or combined to create a three-pronged partnership.

Financial: Support NAM through general operating or restricted support, or provide funds for capital items NAM could not otherwise afford. Sponsor specific NAM events, programs, or building areas. Donate a percentage of profits to NAM through cause marketing.

In-Kind: Hold a food, clothing or toy drive for NAM. Donate your professional services to NAM. Refurbish or replace outdated equipment or furnishings within NAM's program areas.

Volunteerism: Examples of volunteer activities include: delivering meals to the homebound via NAM's Meals on Wheels program, and helping sort items in NAM's Resale Shops. Many other opportunities are available.

Community Partners Levels & Benefits

Corporate giving, strategic philanthropy, cause marketing and sponsorship benefits can be customized to meet your corporate objectives. Community partner contribution levels range from NAM Friends beginning at \$1,000 annually to NAM Guarantors giving over \$250,000 annually. Community Partners who have supported NAM over the years are recognized through cumulative giving levels.

Organizations of all sizes benefit through recognition commensurate with annual giving levels. A portfolio of media and non-media elements include NAM's Annual Report, Newsletter, Community Partner brochure, press releases, internet, signage and marketing/presentation materials. Promotional opportunities, rights to use NAM's logo and naming rights for NAM special events and operating programs are available as well.

Doing well by doing good...

"Americans are sending a message to business that good corporate citizenship is a 'must have' critical to business success in good times and bad."

"An overwhelming two-thirds of Americans interviewed said that 'doing well by doing good' is a savvy business strategy. Good corporate citizenship should be approached as an *investment, asset and competitive advantage* for business that contributes to the company's success."
